**PART III**  
**ASSESSMENT ROLL**

CITY OF SAN MARCOS  
LANDSCAPING AND LIGHTING DISTRICT NO. 1

I do hereby assess and apportion the total amount of the costs and expenses upon the several parcels of land within said District liable thereof and benefited thereby, in proportion to the estimated benefits that each parcel receives, respectively, from said maintained works of improvement and appurtenances as established in the formation of said District.

All of the parcels within the District are located within the City of San Marcos and have approved developments or are in the final stages of obtaining approval for a proposed development. As a condition of approval, the developer is required by the City to provide:

1. Certain standard street lighting for the entire area within the development; and the energy costs for the initial 18-month period; and/or
2. Certain median and/or parkway landscaping improvements; and the maintenance and utility costs for the initial 18-month period.

No area or portion thereof is assessed prior to the completion of the initial 18-month period for the respective development.

The District provides funding for the:

- Furnishing of services and materials for the ordinary and usual maintenance, operation and servicing of the installed street lights, including the furnishing of electric current;
- Lighting systems management including street light master planning and location requirements, processing of San Diego Gas and Electric contracts and payments, and maintenance of plans and specifications;
- Furnishing of services and materials for the ordinary and usual maintenance of the landscaping and irrigation improvements, including the furnishing of water and electric current;
- Landscaping systems management, including the determination of area requirements and inspections, the processing of contracts and payments, and the maintenance of plans and specifications;
- Incidental costs, including engineering and legal expenses.

III-1

**Assessment Criteria: The improvements and annexation into Landscaping and Lighting District No. 1 are conditions of approval for various developments and by nature of the improvements benefit the respective development. Thus, the parcels receive a special and direct benefit**

distinguished from that of the general public. The method of assessment, by improvement is as follows:

### ***Public Lighting Facilities***

The method of assessment is based on units, with a single-family dwelling equal to one benefit unit. The relationship between single-family lots and apartments, mobile-home parks and commercial/manufacturing has been established at 2.65 single-family lots (EDU) to one acre. This relationship is based on the average density of single-family developments in the City of San Marcos.

There are single-family, condominium and mobile-home lots within the City that are individually owned and located on private streets. The assessment units assigned to each lot or unit in these areas were determined by multiplying the total area of the respective development by the 2.65 equivalency factor and dividing the product by the number of lots or units within the development.

For example, the EDU per dwelling unit for 80 dwelling units located on 25 acres is calculated as follows:

$$25 \text{ acres} \times \frac{2.65 \text{ EDU}}{\text{Acre}} \times \frac{1}{80 \text{ Dwelling Units}} = \frac{0.83 \text{ EDU}}{\text{Dwelling Unit}}$$

Parcels were assessed according to the type of lighting provided. For example, all parcels benefiting from 55 watt, 8,000 lumen, LS2A lights were assessed the costs of this lighting based on the assessment units assigned to those parcels. If a parcel benefits from more than one lighting type, that parcel is assessed its share of the cost of each lighting type.

The dollar per single-family lot or EDU, by lighting type, for Fiscal Year 2017-2018 are as follows:

### **Annual**

|----------------|------------------------------------------|

### ***Landscaping Improvements***

In general, the method of assessment is based on frontage. Each median and parkway has been assessed to parcels that front the respective improvements.

However, there are areas where the median and/or parkways benefit the entire development and not just parcels that front the improvement. The parcels in these areas have been assessed according to acreage.

The cost per unit by median and parkway is listed as follows:

| Improvement                           | Annual Cost<br>Per Unit |
