**8.80.010 Purpose of Chapter.** Because smoking of tobacco or any other weed or plant, or inhaling e-liquids, smoke juices or cartomizers, is a positive danger to health and cause of material annoyance, inconvenience, discomfort and a health hazard to those who are present in confined places, and in order to serve public health, safety and welfare, the declared purpose of this chapter is to prohibit the smoking of tobacco, or any other weed or plant, or inhaling e-liquids, smoke juices or cartomizers, in public places of employment, except in designated smoking areas.

**8.80.020 Definitions.**

(a) Smoke or smoking as defined in this chapter shall mean the gases, particles or vapors released into the air as a result of combustion, electrical ignition or vaporization, when the apparent or usual purpose of the combustion, electrical ignition or vaporization is human inhalation of the byproducts, except when the combusting material contains no tobacco or nicotine and the purpose of inhalation is solely olfactory; and shall include the carrying of a lighted pipe, or lighted cigar, or lighted cigarette of any kind, or the lighting of a pipe, cigar or cigarette of any kind or the carrying or use of an activated or functioning electronic and/or battery-operated device, the use of which may resemble smoking (commonly known as "vaping") that can be used to deliver an inhaled dose of nicotine or other substances by delivering a vaporized solution. Electronic smoking device includes any such device, whether manufactured, distributed marketed or sold as an electronic cigarette, an e-cigarette, an electronic cigar, electronic cigarillo, an electronic pipe, an electronic hookah, or any product name or descriptor, including any component, part or accessory of such a device, whether or not sold separately. Electronic smoking device does not include any product specifically approved by the United State Food and Drug Administration for therapeutic purposes or for use in the mitigation, treatment or prevention of disease, where such product is marketed and sold solely for such an approved purpose.

(b) Public place shall mean any enclosed area to which the public is invited or in which the public is permitted, including but not limited to, retail stores, retail service establishments, retail food production and marketing establishments, restaurants, theaters, waiting rooms, reception areas, educational facilities and public transportation facilities. A private residence is not a public place.

(c) Place of employment shall mean any enclosed area under the control of a public or private employer which employees normally frequent during the course of employment, including, but not limited to work areas, employee lounges, conference rooms, and employee cafeterias. A private residence is not a place of employment.

**8.80.030 Prohibitions.** No person shall smoke in a public place or place of employment, except in designated areas.

**8.80.040 Designation of Smoking Areas.** Smoking areas may be designated in public places and places of employment by proprietors or other persons in charge except in retail stores, retail service establishments, food markets, public conveyances, theaters, auditoriums, public assembly rooms, meeting rooms, rest rooms, elevators, pharmacies, libraries, museums or galleries which are open to the public or any other place where smoking is prohibited by law, ordinance or regulation. Where smoking areas are designated, existing physical barriers and ventilation systems shall be used to minimize the toxic effect of smoke in adjacent nonsmoking areas. It shall be the responsibility of employers to provide smoke-free areas for nonsmokers to the maximum extent possible within existing facilities. ~~Restaurants covered by the provisions of this chapter shall designate an adequate amount of seating capacity to sufficiently meet the demands and shall inform all patrons that a no-smoking section is provided.~~

**8.80.050 Optional prohibition.** All managers and owners of any establishments serving or doing business with the public may at their discretion post no-smoking signs within various areas of their businesses and utilize the full right of the provisions of this chapter. ~~No public place other than the ones enumerated in section 8.80.070 shall be designated as a smoking area in its entirety.~~

**8.80.060 Posting of signs.** Signs which designate smoking or no-smoking areas established by this chapter shall be clearly, sufficiently, and conspicuously posted in every room, building, or other place so covered in this chapter. No-smoking signs shall be specifically placed in retail food production and marketing establishments, including grocery stores and supermarkets open to the public, so they are clearly visible to persons upon entering the store, clearly visible to persons in checkout lines, and clearly visible to persons at meat and produce counters. The manner of such posting including the wording, size, color, design, and place of posting, whether on the walls, doors, tables, counters, stands or elsewhere shall be at the discretion of the owner, operator, manager, or other person having control of such room, building or other place so long as clarity, sufficiency, and conspicuousness are apparent in communicating the intent of this chapter.

**8.80.070 Exceptions to Chapter.** Exceptions to the requirements of this chapter shall be as follows:

(a) Certain areas designated for smoking by the business establishment in compliance with state and federal law, including ~~individual private offices, hotel and motel meeting and assembly rooms rented to guests, areas and rooms while in use for private social functions, private hospital rooms, psychiatric facilities, jails,~~ bars, and stores that deal exclusively in tobacco products and accessories.
